

Tentative Interim Amendment

# NFPA® 1126

## *Standard for the Use of Pyrotechnics Before a Proximate Audience*

### 2016 Edition

**Reference:** 3.3.40 and 3.3.41 (new)

**TIA 16-1**

(SC 17-12-22 / TIA Log #1317)

Pursuant to Section 5 of the NFPA *Regulations Governing the Development of NFPA Standards*, the National Fire Protection Association has issued the following Tentative Interim Amendment to NFPA 1126, *Standard for the Use of Pyrotechnics Before a Proximate Audience*, 2016 edition. The TIA was processed by the Technical Committee on Special Effects, and was issued by the Standards Council on December 6, 2017, with an effective date of December 26, 2017.

A Tentative Interim Amendment is tentative because it has not been processed through the entire standards-making procedures. It is interim because it is effective only between editions of the standard. A TIA automatically becomes a public input of the proponent for the next edition of the standard; as such, it then is subject to all of the procedures of the standards-making process.

1. *Revise 3.3.40 to read as follows:*

**3.3.40 Pyrotechnic Device.** Any device containing pyrotechnic material or pyrotechnic effect simulation equipment and capable of producing a special effect as defined in this standard.

2. *Add a new definition to read as follows; and renumber subsequent definitions accordingly:*

**3.3.41 Pyrotechnic Effect Simulation Equipment.** Equipment that uses a chemical mixture, heat source, and the introduction of oxygen to initiate or maintain combustion and is used to produce visible or audible effects by combustion, deflagration, or detonation.

**Issue Date:** December 6, 2017

**Effective Date:** December 26, 2017
