1. *Delete the Informational Note in section paragraph 646.5 as follows:*

646.5 Applicable Requirements. All MDCs shall be listed and labeled and comply with 646.24(B) and 646.6 through 646.10 or comply with this article.

~~Informational Note: See UL Subject 2755, *Outline of Investigation for Modular Data Centers*, for information on listing requirements for MDCs.~~

2. *Revise Table A.1(2) to read as follows:*

A.1 Referenced Publications.

...

Table A.1(2) Product Safety Standards for Conductors and Equipment That Have an Associated Listing Requirement

Article | Standard Number | Standard Title

646 | ~~UL 2755, second edition | Modular Data Centers~~

Substantiation: In November 2025 UL Standards & Engagement withdrew UL 2755:2018 from their available catalog of standards. In a press release “UL Solutions Withdraws Second Edition of UL 2755” and in the press release states: “We have withdrawn the second edition of UL 2755 because its requirements, last updated in 2018, are now obsolete. They are out of alignment with current installation codes and standards, and do not adequately address safety concerns and code compliance for modern modular data centers.” The press release states that UL Solutions has developed a third edition of UL 2755 that was published in 2025, however the document is not publicly available. Since there are safety issues with the 2nd Edition and the 3rd Edition is not publicly available the reference to the standard should be removed for NFPA 70.

Emergency Nature: The proposed TIA intends to correct a previously unknown existing hazard.

The press release from UL Solutions states that the 2nd Edition of UL 2755 does not adequately address safety concerns, and the 3rd Edition of UL 2755 is not publicly available.
