Annual 2018 Revision Cycle
Consent Document
NFPA 720

The Committee on Carbon Monoxide Detection produced a First Revision Report for NFPA 720, *Standard for the Installation of Carbon Monoxide (CO) Detection and Warning Equipment*, and sought Public Comments. No Public Comments were received on this Standard. A letter ballot of the Technical Committee/Correlating Committee (per Section 4.4.8.4 of the *Regs*.) to determine whether to hold a meeting to consider the development of Second Revisions will **not** be required as the Committee has fulfilled the directive in accordance with the Council's vote to approve the request of the Correlating Committee on Signaling Systems for the Protection of Life and Property to relocate the material within the existing NFPA 720, *Standard for the Installation of Carbon Monoxide (CO) Detection and Warning Equipment,* into various chapters of NFPA 72, *National Fire Alarm and Signaling Code*, and withdraw NFPA 720.

NOTE: ***In accordance with 1.6.2(a) of the Regulations, there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the withdrawal of this document. The final date to file any such appeal is August 11, 2017.***
